

Code	Grade	Coating Process	Coating Type	Main Application	Cutting Material	Color	Grade Description
86	PH6135	PVD	TiAlN	Milling Drilling	Steel	Grey	coated carbide grade for tough demanding operations in milling of steels. Excellent choice for unstable conditions.

Milling

PH6135

(P30-P40)

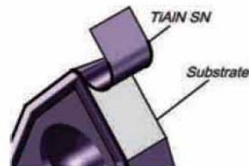

PVD coated carbide four toughness demanding operations in milling of steels. Excellent solutions for instable applications and can be apply in wet or dry.

Drilling

PH6135

(P30-P40)

PVD coated carbide four toughness demanding operations in drilling of steels. Excellent solutions for instable applications.
